DETAILED ACTION

EXAMINER'S AMENDMENT

This application is in condition for allowance except for the presence of claims 1-9, 11-29 and 37 directed to species non-elected without traverse.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-9, 11-29 and 37 have been cancelled.

Terminal Disclaimer

The terminal disclaimer filed on December 7, 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 6,636,350 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 30-32 and 34 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest a photolithographic reduction projection catadioptric objective having a first optical group including an odd number of mirrors; and a second substantially refractive optical group more image forward than the first optical group, the second optical group including a number of lenses and having a negative overall magnifying power for providing image reduction; where the first optical group has a folded off-axis field geometry and provides compensative aberrative correction for the second optical group which forms an image with a numerical aperture of at least substantially 0.80.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
